*Make Clean Energy Easy.*

## MISSION

*To deliver quality energy solutions on budget and on time.*

# WHAT WE DO

## Our Expertise, Enriches Your Future

Armed with a team of seasoned consultants, engineers, and installers, GenPro Energy Solutions EPC Service is your gateway to a sustainable future. We are passionate about equipping both homeowners and businesses with top-tier renewable energy solutions.

## Here's how we shine:

- ✦ End-to-end delivery with our hallmark Gold-standard service for every client.
- ✦ Comprehensive project management protocols that deliver results.
- ✦ Seamless integration of commercial, municipal, and utility-scale solar systems.
- ✦ Intelligent equipment provisioning tailored for each unique project.
- ✦ Dedicated O&M, ensuring longevity and peak performance of your energy assets.
- ✦ Advanced EV chargers and battery storage installations.
- ✦ Premier procurement services for our partners.

**The Vertically Integrated Solution that Powers the Possibilities.**<sup>TM</sup>

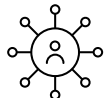

# ABOUT US

Born in the heart of the Midwest, GenPro initially illuminated the scene as a solar water pumping distribution company in 2006. From our inception, we've been unwavering in our commitment to integrity and superior service. This dedication not only won us trusted dealer partners across North America but also carved our niche in an industry eager for enlightening education and reliable product offerings. Our industry reputation wasn't contained by borders. Soon, global business vistas opened up, stretching from the sunny Bahamas to, enchanting Costa Rica. Our exponential growth invited fresh perspectives and attracted talents, ensuring we remain at the forefront of the dynamic energy market. Today, GenPro stands tall, not just as a regional authority, but as a national beacon in renewable energy and energy efficiency integration. Now, as one of the nation's premier EPCs, our expertise spans energy management, energy efficiency, and cutting-edge solar-powered solutions. True to our pioneering spirit, GenPro continuously evolves, integrating innovative technologies to address the holistic needs of our clients—economically, environmentally, and socially. Join us on this electrifying journey towards a brighter, greener future!

## Self-Performing Full-Service Team

One Call, Complete Clarity: Professional Results, Every Time.

## Vertically Integrated

From Sunlight to Switch: Complete Solar Solutions Under One Roof.

## Best-in-Class Tier I

Bankable: Tier 1 Equipment for Unmatched Quality.

# WHY CHOOSE GENPRO?

---

With nearly two decades of industry experience, GenPro understands your needs. We consistently aim to deliver on time and within budget on every project. Our proven track record over the years speaks to our dedication and reliability in every project we undertake.

## EXPERIENCE

Our robust portfolio demonstrates our capacity to manage and execute diverse solar projects. Our team has the necessary technical skills, knowledge, and expertise in designing and constructing solar projects with over 200 combined years of on the job experience.

## FINANCIAL STABILITY

Financial health is vital. GenPro ensures that your project will not be halted due to financial constraints, and it can handle the procurement of necessary materials and services without hitches.

## QUALITY WORKMANSHIP

The durability and performance of your solar project depend significantly on the quality of equipment used and the standard of installation. GenPro uses only top-tier, reliable equipment to ensure that the installation meets industry best practices from beginning to end.

## ON BUDGET ON TIME

Our ability to deliver projects on time is crucial. Efficient project management practices, good communication, and coordination skills are rooted at the core of our business.

Definition: **gold standard**

/ˌgɔl(d) 'stændərd/

noun

.the best, most reliable, or most prestigious thing of its type.

"you can trust GenPro to deliver the gold standard"

# OPERATIONS & MAINTENANCE

---

Whether your system was installed by GenPro Energy Solutions or another provider, we offer Operations & Maintenance (O&M) services to streamline the care of your solar asset. GenPro Energy Solutions ensures your solar system remains in optimal condition with our comprehensive O&M offerings. Clients benefit from a dedicated point of contact, daily reporting, and prompt dispatch services.

## **DISPATCH & REPAIR SERVICES**

---

Through vigilant system monitoring, GenPro Energy Solutions swiftly identifies and addresses potential issues. Should a problem not be resolvable remotely, our dedicated team will conduct an on-site visit for troubleshooting and repair.

## **SYSTEM MONITORING SERVICES**

---

Our specialized team utilizes cloud-based systems to consistently monitor your installation's health, allowing for quick remote issue detection.

## **ANNUAL MAINTENANCE SERVICES**

---

For those subscribing to our O&M services, an optional annual maintenance package is available. This package encompasses routine system care and a thorough electrical assessment.

Services encompass & not limited to:

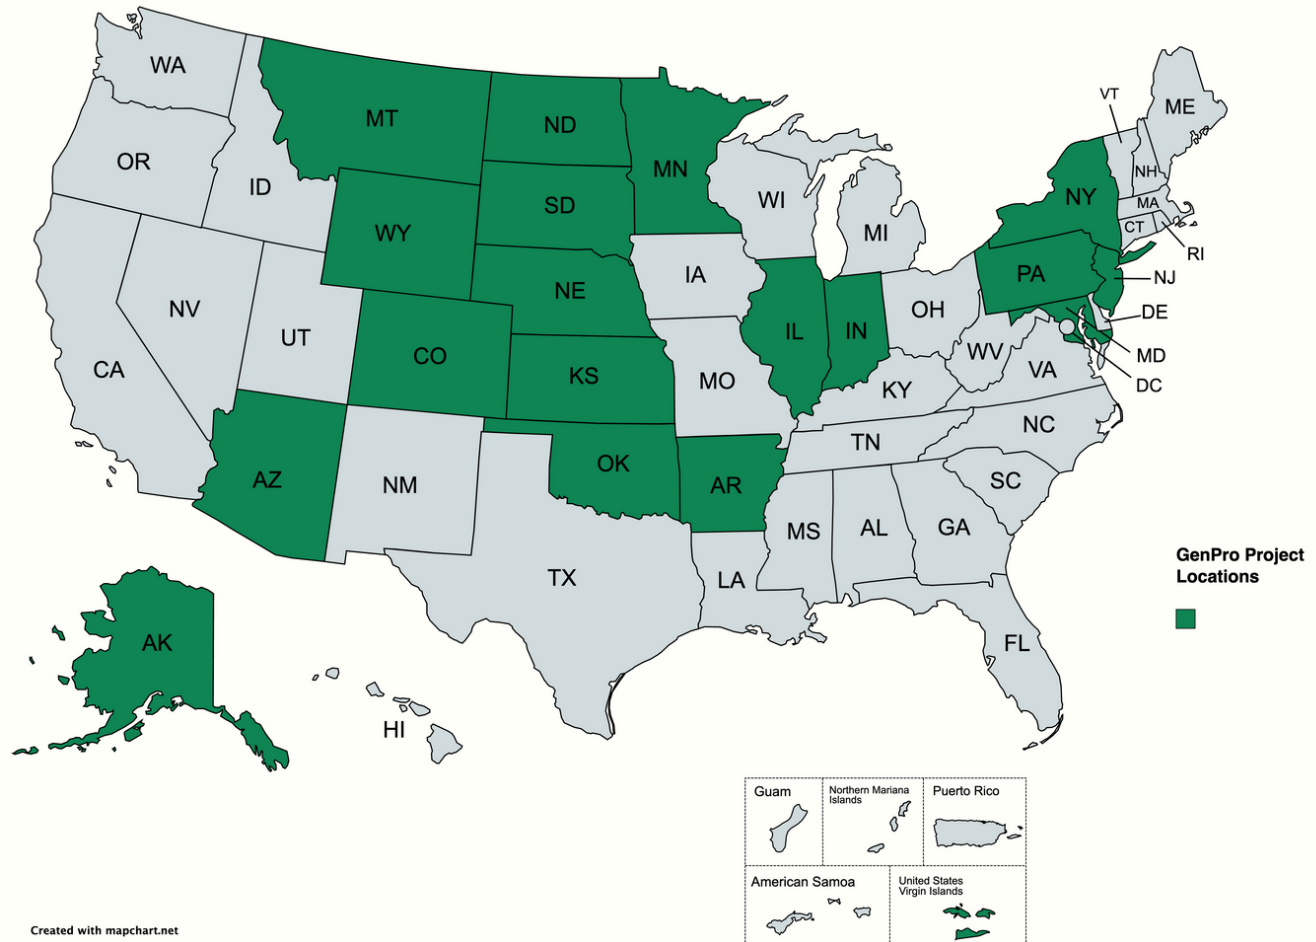

- Inspection of PV modules, array wiring, racking, and inverters.
- Verification of all electrical connection operations.
- Maintenance of security infrastructure, including monitors and barriers.
- Logging of data from inverters and meters
- Vegetation Management
